

Introducing Andora, an beautiful, full-featured MODERN CALLIGRAPHY font with tons of alternate characters and OpenType features. Andora Hand-lettered t is particularly well-suited to invitations, branding, and editorial design.

Perhaps the most fun thing about Andora is that it includes multiple versions of all ascending and descending letters, making it lots of fun to play with layouts and compositions.

The OpenType features can be very easily accessed by using OpenType-savvy programs such as Adobe Illustrator and Adobe InDesign.

Now, you can become a makeup artist!

Start by perfecting your skin so that makeup blends in easily, first wash with cleanser and a cloth to gently exfoliate your face, says tom pecheux, creative makeup director for asbe lauder.

Moisturize and Even Out Skin Tone
The easiest, most natural way to do this is with a tinted lotion, like Irabewla Skin Tint SPF 30, which also contains sun protection (\$95, nordstrom.com). Because it's sheer, you don't have to match it to your skin exactly, as you have to do with foundation. You can even go slightly deeper to warm up your complexion, says New York City makeup artist Polly Osmond. Apply it like a basic moisturizer.
